Email / Portfolio / LinkedIn

Web Developer | Software Engineer | Audio Engineer

Aspiring web developer with a strong interest in creating innovative digital products and solving real-world problems through code. Coding has been a passion for many years, and I am now pursuing it professionally with a solid background in technologies like JavaScript, Python, React and more.
Through both academic and hands-on experience, I have strengthened my teamwork, problem-solving abilities, and attention to detail. I am motivated, humble, and eager to take on new challenges, continuously improving my skills while contributing to the success of a collaborative team.

Skills

- Frontend.
- Backend.
- Database.
- API's.

- Strong teamwork and collaboration.
- Fast learner with adaptability to new technologies.
- Problem-solving mindset and attention to detail.
- Reliable, diligent, and highly motivated.

Work History

2017 - 2024

Supervisor / Manager. Vox Bar, Grand Hyatt Berlin.

- Managed daily bar operations, including team coordination, stock control, and order management.
- Supervising a team, coordinating various hotel service divisions, and working efficiently between teams.
- Handled customer inquiries and complaints, demonstrating strong problem-solving and communication skills.
- Took initiative and responsibility for the success of operations, managing multiple tasks under pressure.

2019

Volunteer 3D Audio Project. CTM Festival, Berlin, Germany.

- Assisted in the development and implementation of an interactive 3D audio experience in a botanical garden.
- Configured audio systems so that sound dynamically changed based on the listener's position, creating an immersive and responsive environment.
- Collaborated with a small team to troubleshoot technical issues and ensure high-quality audio performance.
